

5ft LADDER EXTENSION KIT

To Assemble.

Slide 2 straps onto each end of the plastic rung.

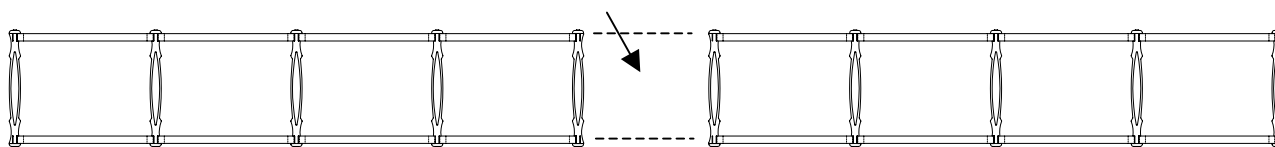

Once straps are in place, press the end cap onto the rung.

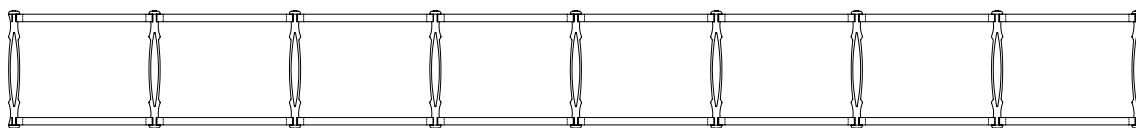

Once cap is in place, the straps will be secure.

To connect ladders together:-

Lay the 2 ladders together, leaving a gap approximately 1 square size in-between. This gap can be used as a square when training.

Alternatively, remove one of the plastic rungs from one end of a ladder. The 2 disconnected straps can then be fixed to the end of the second ladder.
